Bike Friendly Event Recap - John spoke to Paul Selden and they enjoyed having the club and operators present for the event. John mentioned a way to have more rovers next year and will look into Ron's suggestion about having a 7amp hour battery as a capacitor with the cig lighter adapters for increased power in mobile units for those that don't have them. There is an After Action meeting in November that John and Chuck will attend. They want us back for 2022.

Patrick brought up using a different program to create the club name badges and cards. He found a free program online that is more user friendly than what has been used in the past and will see how that works in comparison for new name badges and cards in 2022.

Membership renewals will continue to be broadcast in emails and also put on the website to encourage people to renew.

Meeting adjourned at 6:48pm
